Summary

- Seasoned IT professional with 16+ years of IT experience
- Experience of 10+ years with SQL (DB2 SQL) – SQL Developer having experience with SQL optimization and complex SQL queries.
- Aspiring Data Analyst – **completed virtual internship with Trainity for Data Analytics (Dec-24 to Feb-25)** involving various hands-on project for Data analysis, Visualization and presentation
- **Intermediate knowhow of Microsoft Power BI – Microsoft certified Power BI Data Analyst (via Coursera)**
- **Basic knowhow of Python (PCEP – Python Entry level Programmer certification)**
- Basic Knowhow of Java and JavaScript
- Looking for Remote Data Analyst entry level role as an immediate Joiner

Skill Highlights

- ✓ Comprehensive experience on SQL (DB2 SQL)
- ✓ MySQL developer
- ✓ Agile Delivery and Client focus
- ✓ Power BI
- ✓ Microsoft Excel
- ✓ Basic Know-how about Cloud technology (AWS), Java-script, Java and Python
- ✓ Stakeholder Co-ordination and Management

Education

B.E. (Bachelor of Engineering) with distinction from Govt College of Engineering, Jalgaon, Maharashtra, India in 2000

Diploma in Engineering from Govt Polytechnic, Dhule, Maharashtra, India in 1997

Certifications

- ✓ Virtual internship with Trainity (Data Analyst) – Dec-2024 to Feb-2025
- ✓ Microsoft Power BI Data Analyst – professional certificate completed via Coursera
- ✓ PCEP – Python Entry Level Programmer certification
- ✓ Java Certified Foundations Associate (Oracle University)
- ✓ AWS Cloud Practitioner
- ✓ DevOps Foundation (from DevOps Institute)
- ✓ CCBA - Certification of Capability in Business Analysis (IIBA)
- ✓ Completed Business Intelligence training with Ed-Yoda (online Training provider)

Data Analytics Projects:

1. Social Media Platform - User Analytics

Name	Social Media Platform User Analytics
Tech Stack	MySQL Community Server – GPL version 8.0.40 on Windows 11 Microsoft Office 365
Details	This project involve: 1. Create new database and tables in MySQL and load data using DDL/DML statements 2. Write medium complexity SQL queries to extract data insights 3. Document the insights in presentation format
Employer/Trainer	Trainity (Online Data Analytics Training)

2. Operation Analytics and Investigating Metric Spike

Name	Operation Analytics and Investigating Metric Spike
Tech Stack	MySQL Community Server – GPL version 8.0.40 on Windows 11 Microsoft Office 365
Details	This project involve: 1. Create new database and tables in MySQL and load data using DDL/DML statements 2. Write medium to high complexity SQL queries to extract data insights 3. Document the insights in presentation format 4. SQL queries involve high complexity like WINDOW function, CTE (Common Table Expressions) topics.
Employer/Trainer	Trainity (Online Data Analytics Training)

3. Hiring Process Analytics

Name	Hiring Process Analytics
Tech Stack	Microsoft Excel on Windows 11
Details	This project involve: 1. Clean and prepare the given data, calculate data profile attributes like mean, mode, standard deviation etc 2. Analyse the data and extract business insights as well as prepare visual representations in excel (charts, graphs etc) 3. Use Excel formulas and functions to extract business insights and create visuals
Employer/Trainer	Trainity (Online Data Analytics Training)

4. IMDB Movie Analysis

Name	IMDB movie analysis
Tech Stack	Microsoft Excel on Windows 11
Details	This project involve: 1. Clean and prepare the given data, calculate data profile attributes like mean, mode, standard deviation etc 2. Analyse the data and extract business insights as well as prepare visual representations in excel (charts, graphs etc) 3. Use Excel formulas and functions to extract business insights and create visuals
Employer/Trainer	Trainity (Online Data Analytics Training)

5. Bank Loan Case study

Name	Bank Loan case study
Tech Stack	Microsoft Excel on Windows 11
Details	This project involve: 1. Clean and prepare the given data, calculate data profile attributes like mean, mode, standard deviation etc 2. Analyse the data and extract business insights as well as prepare visual representations in excel (charts, graphs etc) 3. Use Excel formulas and functions to extract business insights and create visuals
Employer/Trainer	Trainity (Online Data Analytics Training)
